<b>2. The Legal Framework</b>	
<p>Under the <b>Equality Act 2010</b>, we see it as our duty to eliminate discrimination, advance equality of opportunity and foster good relations in relation to race, colour, nationality, ethnic or national origin, disability, age, religion or belief, sex or sexual orientation, pregnancy or maternity, gender identity and/or reassignment and marital or civil partner status.</p>	
<b>3. Guiding Principles</b>	
<p>At Leasowes Extra, we fully endorse and accept the following principles:</p> <ul style="list-style-type: none"><li>• <b>All learners are of equal value</b> All learners and potential learners are of equal value and benefit equally from the settings policies, practices and programmes, whatever their ability, background, gender or cultural identity.</li></ul>	

- **Relevant differences are recognised**  
Treating people equally can mean treating them differently. Policies, practices and programmes do not discriminate, but may be differentiated to take account of differences of life experience, outlook and background, and in the kinds of barrier and disadvantage which people may face.
- **We foster positive attitudes, relationships and a shared sense of belonging**  
Policies and programmes promote positive attitudes and interaction, mutual respect and good relations, an absence of harassment or prejudice-related bullying between people of different ability, background, gender or cultural identity.
- **Staff recruitment, retention and development**  
Policies and procedures benefit all employees and potential employees in recruitment, professional development and promotion. Steps are taken to positively promote equality, especially where there is evidence of inequality.
- **Current inequalities and barriers are addressed and reduced**  
In addition to avoiding or minimising possible negative impacts of policies and programmes, we take opportunities to maximise positive impacts by addressing, reducing and removing inequalities and barriers that already exist between people of different ability, background, gender or cultural identity.
- **Policy development involves widespread consultation and involvement**  
People affected by a policy or programme are consulted and involved in the design of new policies, and in the review of existing ones. Such consultation is both direct and through representative organisations, and is based on principles of transparency and accountability. It involves those who in the past have been excluded or disadvantaged, and who continue to face barriers.
- **Society as a whole benefit**  
Policies and programmes benefit society as a whole, locally, nationally and internationally, by fostering greater cohesion and greater participation in public life of people of different ability, background, gender or cultural identity.
