Consent of Images

Dear Parents/Carers,

At Leasowes Extra we pride ourselves on the curriculum that we provide for the children and love to share this with parents and carers at every opportunity. As a setting that always looks to further improve our practice, we would like to be able to allow you to keep the work produced by your child at the end of the school year. Unfortunately, at present, we are unable to do this due to data protection laws. Many aspects of your child’s learning is evidenced through images of groups of children working together, living our setting value of Collaboration. This means that a group photo with your child on it may be included in the Learning Journal of another child.

To enable us to send the children’s Learning Journals home, we are asking for your permission to do this. If you give consent, these will be sent home with the children at the end of the year in the agreement that they are not shared outside of the family household and never shared on any social media platform. **If there are any safeguarding reasons** why you would not want this to happen, then please let me know and we will ensure that your child never features in any group photos that are taken, they would however still take part in all of the learning opportunities.

Please note: if we do not receive permission from all parents (excluding the category mentioned above), it will not be feasible to allow any Learning Journals to go home at the end of the school year. These make wonderful keepsakes and include many happy memories of your children and therefore I urge you to give your permission to allow this to happen.

Please complete and return this letter via email as soon as possible.

Kind regards
Mrs Caven

Name of child: _____

Class: Nursery

I give permission for Learning Journals that may include images of my child, to go home with other children.
