## Knowledge about New Delhi and India

- ❑ India has a population of 1.4 billion people. This is significantly higher than the population of the UK which is approximately 68 million people.
- ❑ The capital city of India is New Delhi. It has a population of 11 million people. Even though it is the capital city, the largest city in India is Mumbai.
- ❑ India is a very large country which has different physical features including deserts, mountain ranges and rainforests. This means it has a very diverse climate. The average temperature is around 25°C.
- ❑ Due to the high temperature, people in India typically wear thin, loose clothing to keep cool.
- ❑ The food grown in India is different to the UK. Some of the main foods include rice, spices and tropical fruits.
- ❑ Many large animals live in India including tigers, lions, elephants, rhinos, snow leopards and river dolphins.
- ❑ New Delhi is a vibrant, busy city with many historical and modern human features such as The Taj Mahal, The Lotus Temple and Humayun's Tomb.
- ❑ New Delhi includes physical features such as the Delhi Ridge and the Yamuna and Ganges Rivers.
- ❑ There are many different types of transport including the metro, CNG buses, Tuk Tuks, taxis and bicycles.
