5  
6  
7  
8  
9  
10

Number one is like a stick;  
a straight line that is very quick.

For number two go right around,  
then make a line across the ground.

Go around, what will it be?  
Go around again to make a three.

Down, across and down some more,  
that's the way to make a four.

Go down, around and then don't stop!  
Finish the five with a line on top.

Make a curve, then make a loop.  
There are no tricks to make a six!

Across the sky and down from Heaven,  
that's the way to make a seven.

Make a 's' and then don't wait,  
go up again to make an eight.

Make a loop and then a line,  
that's the way to make a nine.

A straight line down, then around with your pen,  
that's the way to make a ten.
